

Draft program

Opening

Prof. Garabed Antranikian

President of TUHH, Hamburg University of Technology, Hamburg, Germany, www.tuhh.de

Dr. Harald Menzi, Dr. Tom Misselbrook

Coordinators of the Network on Recycling of Agricultural, Municipal and Industrial Residues in Agriculture (RAMIRAN), www.ramiran.net

Keynotes

Prof. Ralf Otterpohl:

Synergistic interaction of sanitation, biowaste utilisation and energy systems towards water and food security

Director of the Institute of Wastewater Management and Water Protection, TUHH, www.tuhh.de/aww

Chair of TUHH Research Network “Energy & Environment”, www.tuhh.de//fsp-energieumwelt/

Dr. Andreas Schütte:

Biobased economy in Germany – Sustainable supply of bioresources

Director of the “The German Agency for Renewable Resources” (FNR), Gülzow, Germany, www.fnr.de

Prof. Jose Martinez:

Energy recovery and added value molecules extracted from agricultural bioresources and organic waste: research needs, perspectives and prospects

Director of the Rennes Research Centre of the National Research Institute of Science and Technology for Environment and Agriculture (IRSTEA), Rennes, France, www.irstea.fr/en

Prof. Dr. Michael Narodoslawsky:

Bioresource utilisation in context with regional development

Head of the process evaluation group, Institute for Process and Particle Technology, TU Graz, Austria, www.ippt.tugraz.at

Head of the bioresource group, European Sustainable Energy Innovation Alliance (eseia), www.eseia.eu

To be completed...
