

EXCURSION A: Biogas-Compost-Tour

10. September 2015

Start at TUHH: 13:30 h

Return at TUHH: around 19:00 h

Company: BUHCK - Gruppe
Homepage: <http://www.buhck.de/awt>
Tour guide: Dipl.-Ing. Wolfram Gelpke
Address: AWT Abfallwirtschaftszentrum Tritttau GmbH & Co KG, Technologiepark 36, 22946 Tritttau

Coffee & cake: around 17.15,
„Haase’s Landcafe“, Tannenweg 5,
22929 Neu Kasseburg

Travel from Hamburg-Harburg:
50 km, 40 min, by RAMIRAN-bus

Contact from TUHH: Stefan Deegener

AWT Tritttau GmbH & Co. KG is a joint venture of the waste disposal companies Buhck and REMONDIS. Since 1998, AWT operates a composting plant in Tritttau with green waste and source-separated organic household waste from kitchens as well as garden waste from the surrounding districts Lauenburg and Stormarn. Since 2013 an anaerobic fermentation plant is coupled with the composting plant and allows the additional production of biogas. Each year circa 30,000 tonnes of biowaste provide approximately 2.5 million cubic meters of biogas and 15,000 tonnes of quality compost. In 2013 AWT received the Environmental Award of the Economy. The AWT was honoured with the prestigious award by the Studies and Promotion Society of the Schleswig Holstein Economy for its contribution to environmental- and climate-friendly waste recycling.
